

PLANT ENGINEERING PEOPLE PVT LTD

QUALITY POLICY

PEPPL is firmly committed to delivering **precision manufacturing, structural mechanical construction, high-integrity piping networks, and flawless system integration** that meet all engineering specifications, statutory regulations, and client mandates. We build operational excellence into every phase by maintaining a culture of **zero-defect execution**, strict risk prevention, and **continual process improvement**.

Guiding Principles

- **Tailored Execution:** Design, build, and fabricate mechanical equipments & systems, process piping networks, and engineering platforms to meet specific customer requirements within stipulated time schedules.
- **Continuous Benchmarking:** Be a learning company by constantly benchmarking ourselves against global heavy-engineering practices to deliver superior value on-time, on-budget, and on-quality.
- **Operational Excellence:** Achieve execution excellence across manufacturing shops and construction sites by leveraging digitalisation, advanced automation, and cost-effective practices.
- **Global Standards:** Effectively implement and maintain Quality Management Systems (QMS) as per international standards (e.g., ISO, ASME, API) to constantly improve our processes, products, and services.
- **Competence Development:** Enhance employee morale, technical capability, and motivation by empowering our engineers and technicians through continuous learning, certifications, and rigorous training.
- **Strategic Partnerships:** Build long-term relationships with customers, stakeholders, vendors, and strategic business partners based on shared objectives for enhanced project value creation.
- **Risk & Hazard Mitigation:** Reduce the risks related to our field of expertise by continuously identifying, reviewing, and mitigating process and site hazards.

We will abide by the principles of the above Policy in letter and in spirit.
